

ADDENDUM TO THE FEEDER INSTRUCTIONS

The feeder has a new improved clock installed. The clock was received after instructions were printed. The changes in the clock are: (1) you can select the days that you would like to feed; (2) Section 8, paragraph 2 of the instructions mentions the lockup problem that occasionally occurs when changing the battery in the feeder. The new clock has a reset button on the front of the clock. Press the button with a ball-point pen and the clock will initiate the reset process. To set the day of the week on the clock you hold down the clock button and push the day button until the correct day of the week appears. To set individual feeding days press “Feeding Times button” and then press the “Day button” to the day you desire to feed. You can also set feeding days in groups. Available groups are: (1) Monday through Friday; (2) Saturday and Sunday; (3) Monday through Saturday; (4) when no days of the week are showing the feeder will feed all seven days.

NOTE: WHEN “TIME OF DAY” IS DISPLAYED ONE DAY OF THE WEEK WILL AUTOMATICALLY BE SHOWN.
